

### **Mission Statement**

The Commission for Economic Development provides bipartisan support and guidance to the Governor, Legislature and private sector to improve the economic well being and quality of life for all Californians through local, regional and statewide economic development. The Commission promotes a financially and environmentally sustainable growth economy that stimulates private investment, develops the domestic workforce, generates more high value jobs and diversifies public revenue.

Lt. Governor John Garamendi with Francisco Molla of Siliken at the Solar Power International 2008 trade show and conference in San Diego. Siliken is a Spanish solar energy company with a presence in California.
